

I want to echo the sentiments given in the many form letters that will be sent to you in opposition to Sinclair's orders to its stations to order attack ads on Kerry. Among other things, isn't this sort of direct electioneering in violation of Federal law?

In any case, the FCC helps protects the public airways by making sure that, among other things, the interests of business do not trump those of the public. Sinclair is clearly crossing that line.

Thanks very much,

Ed Goehring
